

EXELON TO SEPARATE UTILITY AND COMPETITIVE ENERGY BUSINESSES

Utilities Business

RemainCo will be the parent company for Exelon's fully regulated transmission and distribution utilities, delivering electricity and natural gas to more than 10 million customers. With operations across five states and the District of Columbia, its six utilities consistently rank in the top quartile or higher for grid reliability and other key performance metrics, making them among the best-run utilities in the nation.

Generation Business

SpinCo will be the largest supplier of clean energy and sustainable solutions to homes, businesses and public-sector customers across the continental U.S., backed by more than 31,000 megawatts of generating capacity consisting of nuclear, wind, solar, natural gas and hydro assets. The company will produce about 12 percent of the nation's carbon-free energy, making it an indispensable partner to businesses and state and local governments that are setting ambitious carbon-reduction goals and seeking long-term solutions to the climate crisis.
